

PRIVATE COMPANY EMPLOYEE COMPENSATION SOLUTIONS

FACT SHEET

Transcentive has a solution to support your employee equity administration needs.

ARE YOU PREPARED?

Plan Process Review - changes in your corporate structure may require a full review of your existing procedures. We can help review your procedures and make recommendations to ensure your overall success and compliance.

Data Audit - Now may be a good time to take a careful look at your data to ensure everything is in balance.

Financial Reporting Training - Now more than ever you will want to understand the full benefit of the financial reporting tools on Express Options.

Section 16 Manager - Accurate reporting for your Section 16 employees will become critical. Our tools streamline this process for you.

OUR EQUITY COMPENSATION PLAN SOLUTIONS ARE TAILORED FOR BOTH PRIVATE AND PUBLIC ORGANIZATIONS.

Employment incentive awards are a vital component in rewarding and retaining high-caliber employees. As a private company, many of the packaged solutions available in the marketplace do not meet your specific needs. Without the proper tools, not only is day-to-day administration cumbersome, but accounting and tax reporting are almost impossible.

To support your unique business needs, Computershare and Transcentive offer administration solutions for a full range of equity awards. Our private market offering includes:

Express Options - the award winning, industry leading platform to manage and administer your stock option program

Express Share Tracking - included with Express Options to manage and administer your share holder needs. You can track common and preferred shareholders, as well as warrant holders. Share Tracking also allows you to produce reports on your shareholders, including the ability to produce a capitalization table and print out stock certificates.

Express Desktop - your own, customizable employee self service portal.

YOU NEED AN EQUITY COMPENSTATION PARTNER THROUGH YOUR WHOLE LIFE CYCLE, FROM PRIVATE TO PUBLIC AND EVERYTHING IN BETWEEN.

As your company grows and your corporate structure changes, our solution will grow with you. In addition to the above tools, our expanded offering includes everything you need to take your company public:

IPO Services - a complete customizable package to help you through the transition from a private company to a public company.

Transfer Agent Services - Experience our world class service and local expertise. Let us show you the many ways to save time and money by using both Express Options and our Transfer agent tools with direct interface capabilities.

ABOUT COMPUTERSHARE

Computershare is a global market leader in transfer agency, employee equity plans, proxy solicitation, stakeholder communications, and other diversified financial and governance services. Many of the world's leading organizations use Computershare's services to help maximize the value of relationships with their investors, employees, creditors, members and customers.
